

Cube MX85-WD

Full-force LED meets long-lasting quality

2 LED light functions

Work light and stylish X shape light

Lighting distance up to 55 meters

Improved near field illumination

Beam angle 43.5°

Exceptionally wide beam angle

Powerful LED working lights for off-road use

People who regularly drive in difficult terrain know the benefits of a strong and reliable LED high-beam headlight. Near field illumination is an ideal choice for off-road use. With an illuminance of one lux, the LED working light reaches a light distance of up to 55 meters. The beam angle of the lamp is 43.5 degrees. The working headlight for cars gives drivers two possible LED light functions. One is the classic working light and the other is the LED working spotlight that provides stylish X shape light. And the spotlight is compelling beyond its function as a LED working light. The LED headlights work to underscore the off-road style of the vehicle, clearly emphasizing and enhancing it once again. Compact, robust and durable. Particularly when driving in off-road conditions, durability and quality are much sought-after attributes. The LEDriving Cube MX85-WD working lights have a robust polycarbonate lens and can stand up to the most difficult demands of off-road applications. Over and under voltage protection up to 18 volts automatically breaks the circuit when power exceeds the predetermined current for a specified amount of time. To maintain their durability, the powerful searchlights are additionally equipped with an integrated driver and thermal management system. This eliminates the risk of overheating during continuous use. Excellent compatibility. The LEDriving Cube MX85-WD working lights have a diverse range of applications. They are suitable for use in everything from 4x4 cars to off-road, utility and industrial vehicles through to recreational or agricultural vehicles. It is important to note, however, that these powerful working lights for automobiles are permitted only for off-road applications and must not be used on public roads.

Product family datasheet

Technical data

	Product information		Electrical data		Photometrical data	Lifespan
Product description	Order reference	Application (Category and Product specific)	Nominal voltage	Nominal wattage	Luminous flux	Lifespan Tc
Cube MX85-WD LEDDL101-WD	LEDDL101-WD	Working light application	120 V	20 W	1250 lm	5000 h

	Capabilities	Certificates & standards		
Product description	Technology	Type of protection	Approval marks – approval	Standards
Cube MX85-WD LEDDL101-WD	LED	IP67	E6 approval	ECE R10

	Logistical data	Environmental information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACH)
